

PSYCHOLOGY FILM LIST

Psychology is EVERYWHERE! We have composed a list of list of films/ documentaries that link to the course that you will be studying in the future. This is by no means a compulsory list, more of something to whet your psychology appetite. There is no expectation for you to purchase the films listed, lots of them can be found on platforms such as Netflix, Amazon Prime and Disney+. Some of you may have copies of these films at home on DVD.

You may find that you have seen these films before and when you watch them again, you do so with fresh eyes.

Enjoy **SLWGS Psychology Department** 😊
